

## INTRODUCING FLEXCONNECT

COMMITMENT-FREE, USAGE-BASED ETHERNET FOR CLOUD AND DATA CENTER CONNECTIVITY

You shouldn't have to sign long-term contracts and pay fixed fees for circuits you may only use occasionally. Now you don't. FlexConnect is a commitment-free, usage-based Ethernet product for companies that want to align their connectivity with cloud usage, require short-term connectivity or have irregular traffic patterns.

### NO COMMITMENT

With FlexConnect, businesses can get Layer 2 Ethernet\* connectivity without a term contract. Say goodbye to early termination liabilities and bandwidth commitments.

### SAVE MONEY

You pay minimal monthly fees for ports and just 3 cents per gigabyte for data traffic. For a low utilization circuits, customers can save up to \$10,000 annually\*\* by using FlexConnect.

### WIDE REACH

FlexConnect is available at more than 300 locations that include every major data center, carrier hotel, and cloud destination in US and Europe.

### ON-DEMAND

Buy FlexConnect through an easy-to-use wizard on Zayo's shopping platform – Tranzact.

### PARTNER ECOSYSTEM

Zayo Group has existing partnerships with many providers – Amazon Web Services (AWS), Microsoft Azure, VMWare, Equinix, Digital Realty Trust, Telx, EdgeConnex - which means your FlexConnect service can be turned on in 30 days or less.

### NATIVE NETWORK

FlexConnect rides on Zayo's owned and operated fiber infrastructure, providing full control and scalability and enabling customers to leverage the expansive reach of Zayo's metro and intercity fiber footprint.

# FlexConnect
