

## COLOCATION + CLOUD

### Waco, TX 700 Austin Ave

#### ZAYO COLOCATION

zColo offers carrier-neutral connections to cloud, IP, financial/low-latency, content, video and peering ecosystems. Reaching a myriad of networks via direct connections across its many interconnect-focused colocation facilities, zColo also extends beyond its footprint to reach all on-net buildings across Zayo's robust fiber optic network.

*Our Waco facility is located in the heart of Central Texas, just 100 miles outside of Dallas/Fort Worth. This strategic location makes Waco an ideal location for any DR strategy. This facility can withstand an F4 tornado, is outside the 500-year flood plain, and is positioned on a separate power grid from other major Texas metroplexes. This provides an operational advantage*

#### SPACE AND POWER

- 34,000 critical square feet
- Single cabinet and custom cage deployments
- AC/DC breaker and metered power available
- 4 MW Total UPC
- 2N UPC Redundancy
