

Your users demand a flawless online experience. And Zayo delivers just that.

Zayo is a Tier-1 Internet and networking force in the Dallas Fort Worth (DFW) metro. We did the hard work. We built and operate one of the largest fiber-optic networks in the area – and now we will put it to work for you – with a local support team who'll be with you through every step of your network's evolution.

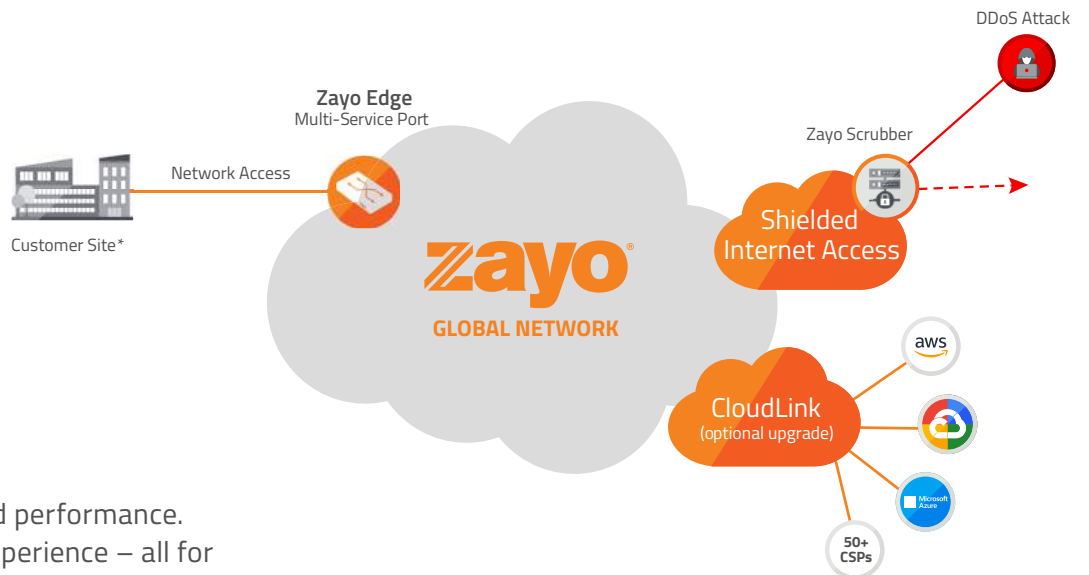

Work with us directly for carrier-grade network quality and an effortless local experience.

DALLAS FORT WORTH METRO

- Route miles of fiber: >6,000**
Diversify and protect your network
- On-net buildings: >2,000**
No third parties, for fast installation
- On-net neutral data centers: >50**
Comprehensive cloud access
- Near-net buildings: >30,600**

Getting started with Zayo is easy. We can streamline your network and help your business grow with our **Shielded Internet Access Product Offer: Dedicated Internet Access + DDoS Protection + Optional Cloud Connectivity.**

- **Internet Access:** a dedicated connection from Zayo
- **Attack Protection:** protection against the inevitable Distributed Denial of Service (DDoS) attack
- **CloudLink Upgrade:** a direct connection to your Cloud Service Provider – virtually eliminate download charges

Improved reliability, security, and performance. Your path to the best Internet experience – all for one competitive monthly price.

*At your site, run all three services on a single port, or choose to run them on individual ports for greater protection from outages.
