

Dentist uses SD-WAN to simplify their network, improve performance, and control cost

Challenge:

With 700 dental offices, an overly complex data infrastructure, and a critical UCaaS system, this customer had reliability and cost challenges.

Solutions:

A simplified network edge with SD-WAN, lower cost with LTE, and improved data center protection with MPLS.

Results:

Peak performance
Easy management
Ultimate network stability
Lower overall costs

Why Zayo:

Simplifying network complexities

Deep SD-WAN experience

Deep Tier-1 Internet experience

Stellar support
