- 400G To be completed

39	**17.3M**	**~50K**	**400**	World Record for
400G Routes Completed in NA	Fiber Miles Globally	On-Net Buildings Globally	Markets Globally	**Longest 800G** Waves Circuit

Zayo's European expansion efforts across 6 countries give our global customers improved capabilities – you get the greatest bandwidth possible across all locations in Europe.

Our fully diverse subsea network provides the highest available and lowest latency solution to connect across continents. Zayo reaches beyond core cable landing stations to connect international markets.
