

THINKING ABOUT

Digital Transformation like a CIO

We spoke to IT leaders and decision-makers to get a behind-the-scenes look at where they are in their digital transformations and what's holding them back from an effective transformation.

of organizations are in a digital transformation

of organizations are in the early stages of digital transformation

“Industries with the greatest margin pressures and the highest end-user experience expectations are the most motivated to innovate.”

LARGE DEALS LEAD, TECH CONSULTING COMPANY

Most popular areas IT Leaders invest in are:

Artificial Intelligence

Infrastructure Monitoring

Cloud or Multi-Cloud Computing

Robotic Process Automation

“If I’m looking at digital transformation like a life cycle, if there’s an early, late, and more sophisticated phase, I’m probably in the latter part of the very early stage of adoption. And a part of that is because, I think in general, healthcare is a later adopter. And part of that is because risk and regulation are involved.”

VP, HEALTHCARE COMPANY
