

# Insurance Company Connects Dispersed Workforce with SD-WAN

## Challenge:

Large financial insurance company wanted to connect its workforce dispersed over 6,000 office and agent locations

## Approach:

The company deployed a VMware SD-WAN by VeloCloud solution with Zayo handling deployment, configuration, training, troubleshooting, and management

## Additional Support:

Zayo configured and shipped 18,000 devices and provided ongoing support post-deployment

## Why Zayo:

**SD-WAN expertise**

**Fast deployment**

**Vendor-neutral assistance**

**Maintenance & support**

**Connect what's  
next in finance**
