## Zayo's Subsea Footprint Enables Global Digital Transformation

Securing fast, reliable and high-capacity subsea connectivity is crucial to capturing global opportunity. Zayo's fully diverse subsea network connectivity and PoP design provides the diverse, high-availability, and low latency solutions needed to compete in worldwide markets. With flexible bandwidth options, full stack product offerings, strong peering partnerships and multiple strong partner relationships, Zayo's reach expands beyond core cable landing stations, securely connecting customers to the world's key international markets.

OWNED SUBSEA CONNECTIVITY

Zayo's new, owned subsea cable route ZEUS is the most powerful and reliable link on this critical connectivity corridor. Introducing, The King of the Sea:

- **Double-armoured & buried** 2-3 Meters Deep
- Connecting the **UK and Netherlands**
- Bandwidth options: **10G, 100G, 400G**
- **2022** completion date
