

Your users demand a flawless online experience, and Zayo delivers just that.

Zayo is a Tier-1 Internet and networking force in Toronto. We did the hard work, by building and operating one of the largest fiber-optic networks in the area. Now we will put it to work for you, with a local team to support you through every step of your network's evolution.

Work with us directly for carrier-grade network quality and an effortless local experience.

TORONTO METRO

Route kilometers of fiber: ~2,150
Diversify and protect your network

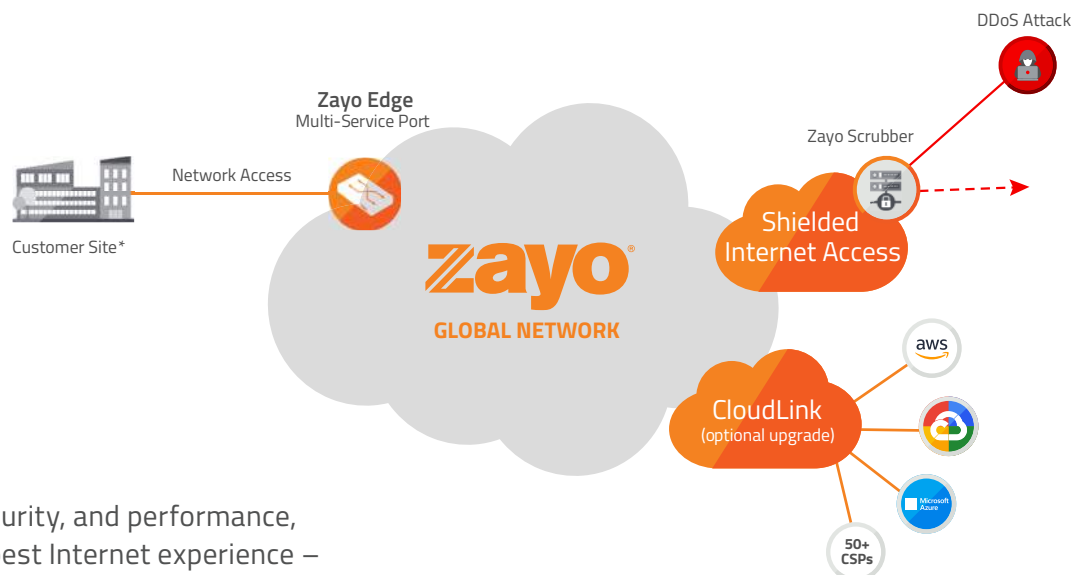

On-net buildings: ~1,300
No third parties, for fast installation

On-net neutral data centers: >30
Comprehensive cloud access

Near-net buildings: >15,000

Getting started with Zayo is easy. We can streamline your network and help your business grow with our **Shielded Internet Access Product Offer: Dedicated Internet Access + DDoS Protection + Optional Cloud Connectivity.**

- **Internet Access:** a dedicated connection from Zayo
- **Attack Protection:** protection against the inevitable Distributed Denial of Service (DDoS) attack
- **CloudLink Upgrade:** a direct connection to your Cloud Service Provider – virtually eliminate download charges

Through improved reliability, security, and performance, you'll discover your path to the best Internet experience – all for one competitive monthly price.

*At your site, run all three services on a single port, or choose to run them on individual ports for greater protection from outages.
