Zayo

OUR FIBER FUELS GLOBAL INNOVATION

U.S. FEDERAL GOVERNMENT
Networking Solution Overview

Metro Fiber Market
— Zayo Infrastructure

As new innovations transform IT, Federal agencies are being challenged to modernize their infrastructure and adopt new technologies while enhancing and securing their operations at a record pace. Keeping up with the continuing catalyst of change means: integrating legacy technologies, meeting government standards, containing costs, scaling for the future, shortening deployment timeframes, and securing and protecting all data in the most resilient matter possible.

Zayo's robust fiber-based network solutions modernize and equip Federal agencies to meet challenges head on. This unique opportunity is achieved by scaling and securing their network, reducing deployment and upgrade timelines, and containing costs and positioning agencies to adopt emerging IoT, software-defined and 5G technologies.

Zayo's is trusted partner to **150+ public sector entities globally**	Zayo provides services to **18 of the 20 largest government contractors**	Zayo provides connectivity to **major GovCloud facilities** and is connected to **1,300+ data centers**

NETWORKING SOLUTIONS

Modernize Your Infrastructure
- Equip your network with scalable bandwidth up to 400G.
- Incorporate software-defined capabilities leveraging Zayo's solutions.
- Build an IoT and 5G infrastructure using Zayo's unique assets and expertise.
- Streamline operations with our multiple API bonds into your IT environment.

Enhance Continuity Of Operations
- Build resiliency – Leverage Zayo's unique and expanding fiber network to diversify and fortify your network.
- Remove the middle man – Partner with Zayo directly to ensure the availability and confidentiality of your data.
- Add security – Zayo's integrated options include DDoS Protection, Firewall as a Service, and Encryption.

Accelerate Cloud Adoption
- Choose your cloud provider – Direct, secure connections to over 50 cloud service providers.
- Choose your technology – Cloud adoption using Fiber, Ethernet, MPLS, Internet, or Wavelengths.
- Choose your cloud environment – Migrate applications to hybrid (public/private) and multi-cloud systems.

Optimize Your Data Center Footprint
- Consolidate data centers and maintain security with Zayo's diverse access into all major agency data centers.
- Easily quote, provision, and manage key data centers networking using Zayo's online portal.

U.S. FEDERAL GOVERNMENT
Networking Solution Overview

SERVICES TO BUILD YOUR FUTURE

DARK & LIT FIBER
Cost-effective solution for massive bandwidth growth

INTERNET ACCESS
From a top ten ranked global Tier-1 ISP with end-to-end connectivity and peering reach

WANS
Layer 2 Ethernet and Layer 3 IP networking options, with an SD-WAN software overlay for management

CLOUDLINK
Enhance performance, scale, and security of your cloud-stored data

DDOS PROTECTION & FIREWALL SERVICES
Protect against sophisticated, inevitable, and potentially crippling cyber attacks

CONTRACT VEHICLES & MECHANISMS

- ✓ GSA Schedule 70
- ✓ Full & Open Contracts
- ✓ Sole-source Awards
- ✓ Indirect via Federal System Integrator Partners
- ✓ Indirect via Defense Contractor Partners
- ✓ Indirect via Federal Small Business Partners
- ✓ Indirect via GSA Networx & EIS Partners
