TARIFF FORMAT

- A. **Sheet Numbering** - Sheet numbers appear in the upper right corner of the sheet. Sheets are numbered sequentially. However, occasionally, when a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. **Sheet Revision Numbers** - Revision numbers also appear in the upper right corner of each sheet. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd Revised Sheet 14. Because of various suspension periods, deferrals, etc. the Commission follows in its tariff approval process, the most current sheet number on file with the Commission is not always the sheet in effect. Consult the Check Sheet for the sheet currently in effect.
- C. **Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of code is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a)
 - 2.1.1.A.1.(a) i.
 - 2.1.1.A.1.(a) i.(1)
 - 2.1.1.A.1.(a) i (1)(a)
- D. **Check Sheets** - When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff with a cross- reference to the current revision number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by and asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc., remains the same, just revised revision levels on some sheets). The tariff user should refer to the latest Check Sheet to find if a particular sheet is the most current on file with the Commission.

2.10.1. Company, in order to ensure payment of its charges for Service or for loss of or damage to Company property, will require Applicants and Customers to establish and maintain credit. The establishment or re-establishment of credit as provided in this Section does not relieve an applicant or Customer from compliance with other provisions of this Tariff as to the payment of bills and in no way modifies the Sections regarding disconnection and termination of Service for failure to pay bills due for Service furnished.

2.10.2. Company may require any applicant or Customer to establish and maintain credit in one of the following ways:

- A. Demonstrating credit satisfactory to Company by providing information pertinent to the applicant's or Customer's credit standing;
- B. Providing a suitable guarantee in writing, in a form presubscribed by Company;
or

SECTION 2 - RULES AND REGULATIONS, Continued**2.1.0 ESTABLISHMENT OF CREDIT, Continued**

- 2.10.3. Company will extend credit to an applicant for new Service without a deposit if the applicant has verifiable previous or existing telephone service with any telephone company in the United States for at least twelve (12) months, and the payment record is made available and the account history is satisfactory. The payment record of an account will be deemed satisfactory if the previous or existing service was not discontinued for nonpayment within the past twelve (12) months.
- 2.10.4. To safeguard its interests, Company may require a Customer to make an advance payment before Services are furnished. The advance payment will not exceed an amount equal to the nonrecurring charge(s) and one (1) month's recurring charges for the Service. In addition, where special construction is involved, the advance payment may also include an amount equal to the estimated nonrecurring charges for the special construction and recurring charges for a period to be set between Company and the Customer (if any). The advance payment will be credited to the Customer's initial bill. An advance payment will be required in addition to a deposit.

SECTION 2 - RULES AND REGULATIONS, Continued**2.12. INITIAL SERVICE PERIOD**

- 2.12.1. The Initial Service Period is defined by the terms of the service contract or other agreement to provide services. In the absence of a contract/agreement or definition of the Initial Service Period, the Initial Service Period is one month (30 days). If a Customer disconnects service before the end of the initial service period, that Customer may be responsible for paying the regular rates for the remainder of the initial service period, in addition to other early termination fees. - 2.14.1. - 2.14.5. A credit allowance for disruption of service will only be given if the disruption in service exceeds twenty-four (24) hours.
- 2.14.6. The credit allowance will be based upon the ratio of the duration of the service interruption (measured from the time the interruption is reported to or detected by Company, whichever occurs first) to the total time in a 30 day month. That ratio, multiplied by the monthly rate for the service affected shall determine the amount of the credit allowance.
- 2.14.7. Credits for interruptions of service shall in no event exceed an amount equivalent to the recurring monthly charges for the month of service during which the event that gave rise to the claim for a credit occurred. A credit allowance as provided in Section 2.14.6. is applied against the rates specified for the service and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.

Other than as set forth for each of the Services above, Company will not provide additional network connections and is not responsible for and will not make any changes or submit updates to 911/E-911 databases for any services. Customer will be responsible for providing all necessary 911/E-911 services as required by applicable federal, state and local laws, regulations, rulings, orders, and other actions of governmental agencies (“Rules”), including, but not limited to agreements with, and network or other connection to, the local PSAPs, maintain the necessary databases and updating and transferring the ALI to the appropriate PSAPs.

Company does not provide 911/E-911 service for any of its data services. Company does not provide PS/ALI Service³ at this time, but Company will provide Customer with referrals to other companies who provide PS/ALI or emergency response services.

³ PS/ALI Service (Private Switch/Automatic Location Information) is an enhanced service that allows multi-line telephone system owners to provide the specific address location of each extension or station to the PS/ALI database manager for E-911 service. Station- or location-specific automatic number identification (ANI) generated by a multi-line telephone system can then be passed directly to the E-911 system to identify the precise location of the caller and then passed to the appropriate PSAP for response. At the Customer's request, the PS/ALI administrator can update the appropriate E-911 database.
